SPECIAL PROJECT INFORMATION SHEET

Project Description	Special HT-119 5:1 less AWUR		
Date created	23 October 2014	Project Number	Q3285

INTRODUCTION & APPLICATION

Oil & gas application for a compact torque multiplier rated up to 7,000 N.m for integration into a single use sub-sea torque tool.

SOLUTION

Special Handtorque HT-119 having 5:1 torque multiplication up to 7,000 N.m, less anti-wind-up ratchet, less torque reaction, special 1.5" A/F male input drive and standard 1.5" A/F male output drive.

TECHNICAL SPECIFICATION / DATA HIGHLIGHTS

Stainless steel un-hardened input drive / gear having reduced service life was supplied for reduced delivery time. Hardened item is recommended.

Assembled with EP2 water repellent grease.

For break-out use only and so supplied un-calibrated.

Other special Handtorque products can be supplied, please contact Norbar with your application details.
