

ENGINEER TO ORDER

SPECIAL PROJECT INFORMATION SHEET

Project Description	PT17 with Special Torque Reaction & 6" Square Drive		
Date created	1 February 2012	Project Number	Q2054

INTRODUCTION & APPLICATION

Power generation industry requirement to dis-assemble hydro-electric turbine M160 x 4 nuts.
Restricted access and 200,000 N.m minimum torque required.

SOLUTION

Pneutorque PT 17 - 250,000 N.m manual 2-speed with special torque reaction and 6" male square drive.

TECHNICAL SPECIFICATION / DATA HIGHLIGHTS

- PT 17 # 18088.MTS, 250,000 N.m maximum torque & maximum body diameter 410mm.
- Output drive 6" male square # 19032.
- Special torque reaction # Q2054.100.
- Also available; single speed PT17 # 18088 and remote model on request.
